SOIL MECHANICS AND FOUNDATION ENGINEERING

Numbers 1-6, 1966

(A translation of Osnovaniya, Fundamenty i Mekhanika Gruntov)

A

Akishin, I. P. - 92
Amaryan, L. S. - 189, 378
Anan'ev, V. P. - 67, 186
Askalonov, V. V. - 414

B

Babichev, Z. - 291
Babichev, Z. V. - 319
Batrakov, O. T. - 65
Bazarbaev, I. A. - 412
Bazin, E. T. - 189
Belous, N. P. - 357
Berezantsev, V. G. - 229
Bespalyi, I. D. - 43, 278
Birulya, A. K. - 65
Bobylev, L. M. - 92
Bogolyubov, K. S. - 258
Borodachev, N. M. - 15
Borodavchenko, S. I. - 400
Bronshtein, B. E. - 244
Bubis, I. I. - 339
Bulychev, V. G. - 189, 400
Burov, E. S. - 250

C

Charushnikov, I. G. - 317
Cherkasov, I. I. - 374
Chernysheva, E. I. - 82
Chunikhin, V. G. - 250
Chuvalev, V. K. - 409

D

Didukh, B. I. - 4
Dolgikh, P. D. - 272
Dorman, I. Ya. - 207
Dranovskii, A. N. - 39
Dzhioev, L. N. - 125

E

Eiduk, R. P. - 269
Eizler, P. I. - 286
Ékman, V. E. - 95
Eroshenko, V. N. - 105

Evgen'ev, I. E. - 345

F

Fedorov, V. I. - 385
Federova, N. Ya. - 122
Finaev, I. V. - 202
Fotieva, N. N. - 417

G

Galitskii, V. G. - 269
Gendel', É. M. - 132
Geniev, G. A. - 308
Gil'man, Ya. D. - 67, 186
Goncharov, B. - 291
Goncharov, B. V. - 255
Gorbanov, A. S. - 244
Gorbunov, B. P. - 409
Gorbunov-Posadov, M. I. - 170
Gorlovskii, B. L. - 355
Gressel', P. M. - 335
Grigor'ev, V. A. - 286
Grigoryan, A. A. - 278

I

Ignatova, O. I. - 97
Ioselevich, V. A. - 4
Ivanov, V. D. - 128

K

Kanakov, G. V. - 202
Kananyan, S. A. - 387
Kavratskii, I. G. - 433
Khadzhinov, S. Z. - 244
Khamov, A. P. - 289, 403
Klykova, Z. V. - 381
Kocharova, I. A. - 60
Kochengin, B. I. - 198
Komlev, V. - 291
Korzhenko, L. I. - 63
Koslov, S. M. - 284
Kovalev, K. V. - 371
Kruglov, I. N. - 269
Kryzhanovskii, A. L. - 165
Kulachenko, B. G. - 278
Kul'chitskii, G. B. - 112
Kuseva, V. I. - 274

L

Lazebnik, G. E. - 82, 322
Le Kong-chung, - 371
Levadnyi, Ya. M. - 322
Litvinov, A. Ya. - 184
Litvinov, I. M. - 116
Lomize, G. M. - 165
Loseva, E. A. - 47
Luga, A. A. - 143
Lyakhov, G. M. - 159
Lytkin, V. A. - 39

M

Makaruk, P. N. - 363
Mal'ginov, S. I. - 112
Malyshev, M. V. - 260
Marchenko, A. S. - 176
Markin, K. F. - 423
Martishyus, A. T. - 393
Mel'nikov, B. N. - 23
Mikhal'chenko, I. I. - 105

TABLE OF CONTENTS

SOIL MECHANICS AND FOUNDATION ENGINEERING

Numbers 1-6, 1966

(A translation of Osnovaniya, Fundamenty i Mekhanika Gruntov)

Engl./Russ.

Number 1 January-February, 1966

New Stage in the Development of the National Economy	1	1
SOIL MECHANICS		
Description of Deformations of a Soil Sample by Different Deformation Theories — B. I. Didukh and V. A. Ioselevich	4	3
Calculation of Forced Vertical Vibrations of a Circular Plate Resting on an Elastic Foundation — G. B. Muravskii	11	7
Forced Vibrations of a Rigid Plate or Block Lying on an Elastic Half-Space — N. M. Borodachev	15	8
STRUCTURAL PROPERTIES OF SOILS		
Role of Macropores in the Slumping of Loess — M. Minkov and K. Stoilov	19	10
Relation of Frost Heaving of Eluvial Clay Soils in the Urals on the Moisture Content, Grain Size, and Mineral Composition — B. N. Mel'nikov	23	12
FOUNDATION ENGINEERING		
Calculation of Precast Composite Reinforced-Concrete Foundations under Columns in Terms of Strength and Cracking — S. A. Rivkin	25	13
Additional Settlement of a Building Due to the Foundation of an Adjacent Building — I. F. Votyakov	36	18
UNDERGROUND STRUCTURES		
Calculation of a Ring in an Elastic Medium with Mixed Conditions at the Contact — K. V. Ruppeneit, V. A. Lytkin, and A. N. Dranovskii	39	20
FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS		
Results of Observing Houses Constructed on Slumping Soils in Kherson — I. D. Bepalyi	43	22
Determination of the Deformations of a Plastic House by the Stereophotogrammetric Method — E. A. Loseva and G. Z. Skoblov	47	25
ADVICE TO DESIGNERS AND INVESTIGATORS		
Nomogram for Determining the Dimensions of a Foundation Base — M. A. Sitnikov	50	27
Method of Determining the Relative Differential Settlement of the Foundation of a Building or Structure — V. Yu. Skul'skii	51	28
FROM FOREIGN EXPERIENCE		
New Method of Preventing Slumping — R. B. Pentkovski	54	29
DISCUSSIONS		
Designing of Buildings and Structures on Slumping Soils	56	31
Letter to the Editor — D. E. Pol'shin	59	33
INFORMATION		
New Pavilion "Construction of Large-Panel Buildings under Complex Conditions" — A. I. Yushin and I. A. Kocharova	60	34

[VI International Congress on Soil Mechanics and Foundation Engineering (Canada, 1965)		39]
CRITICISM AND BIBLIOGRAPHY		
L. M. Peshkovskii. Calculations of Bases and Foundations of Civic and Industrial Buildings —Reviewed by L. Sh. Mintsikovskii, L. I. Korzhenko, and V. A. Yaroshenko	63	36
V. F. Babkov and A. V. Gerburt-Geibovich. Principles of Pedology and Soil Mechanics —Reviewed by A. K. Birulya and O. T. Batrakov	65	37
A. A. Grigoryan. Manual for the Design of Bases and Foundations of Buildings and Structures on Slumping Soils —Reviewed by V. A. Zurnadzhi, V. P. Anan'ev, and Ya. D. Gil'man	67	38
A Valuable Work of Polish Scientists —Reviewed by K. B. Radzikhovskii	69	39
In Memory of Nikolai Ivanovich Saltykov	71	39
Works on Soil Mechanics and Foundation Engineering Published in 1965.	72	40

Number 2 March-April, 1966

Appropriate Reception of the 23rd Congress of the Communist Party of the Soviet Union.	79	1
SOIL MECHANICS		
Investigation of the Distribution of Earth Pressure on a Model of Flexible Single-Anchor Retaining Walls—G. E. Lazebnik and E. I. Chernysheva	82	3
CONSTRUCTIONAL PROPERTIES OF SOILS		
Method of Dynamic Soundings of Loessial Soils—E. V. Ripskii, V. F. Razorenov, and G. V. Zhornik	87	5
Comparison between Theory and Experiment in Soil Compaction by Ramming —I. P. Akishin and L. M. Bobylev	92	8
Number of Samples Required to Determine Standard Values for the Physical Characteristics of Soils—V. E. Ékman.	95	10
Investigation of the Correlations between Physical Characteristics and Modulus of Deformation of Clay Diluvial Soils of Plastic Consistency—O. I. Ignatova	97	12
FOUNDATION CONSTRUCTION		
Calculation of a Rigid Strip Foundation Resting in a Soil Layer Underlain by a Rocky Base (Plane Problem)—O. E. Prikhodchenko	100	14
Bearing Capacity of Friction Piles in Thawed Soils—V. N. Eroshenko and I. I. Mikhal'chenko	105	16
Increase of the Bearing Capacity of Single Piles in Time—G. F. Novozhilov	108	18
UNDERGROUND STRUCTURES		
Earth Pressure on the Contour of Tunnels Driven by the Open Method —S. I. Mal'ginov and G. B. Kul'chitskii.	112	20
CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS		
Accelerated Method of Deep Compaction of Slumping Loess Soils of the II Type by Preliminary Flooding and Directed Explosions—I. M. Litvinov.	116	22
Experimental Foundations with Drain Blankets and Wells in Heaving Soils —N. Ya. Federova	122	26
Effect of the Structural Strength of Loess Soils on the Effectiveness of Their Compaction by Heavy Tampers—L. N. Dzhioev	125	28
FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS		
Experience in Sinking an Open Caisson in a Thixotropic Lining—S. A. Ter-Galustov, A. I. Ponomarenko, V. L. Opershtein, and V. D. Ivanov	128	29

Arrest of Building Tilt—É. M. Gendel'	132	32
ADVICE TO DESIGNER AND INVESTIGATOR		
Calculation of Stresses and Strains of a Base with Consideration of Founding Depth —I. A. Rozenfel'd	135	34
FROM FOREIGN EXPERIENCE		
Technology of Underwater Concreting of Benoto Situ-Cast Piles—D. Pati	136	35
REVIEWS AND BIBLIOGRAPHY		
Certain Comments On: Designer's Handbook Volume. Bases and Foundations	140	37
Yu. G. Trofimenkov and A. A. Obodovskii. Pile Foundations of Apartment Buildings —Reviewed by A. A. Luga	142	38
N. G. Bobov and L. A. Brattsev, Editors. Geocryological Conditions of the Pechora Coal Basin—Reviewed by I. I. Roginets	144	39
B. K. Hough. Basic Soils Engineering (a review)	145	39
Works on Soil Mechanics and Foundation Engineering Published in 1965	146	40

Number 3 May-June, 1966

SOIL MECHANICS		
Problems of the Theory of Deformability of Cohesive Soils — S. S. Vyalov	151	1
Determination of Dynamic Compressibility of Soils — G. M. Lyakhov	159	5
Fundamental Relations of the Stress State and the Strength of Sandy Ground — G. M. Lomize and A. L. Kryzhanovskii	165	8
Calculation of a Horizontal Load on a Foundation Wall with Consideration of a Discontinuity of the Base — A. B. Ogranovich and M. I. Gorbunov-Posadov	170	11
Simulation of Ground Deformation — A. S. Marchenko	176	14
CONSTRUCTIONAL PROPERTIES OF SOILS		
Method of Determining Creep Parameters of Incompletely Saturated Clay Soils Based on Results of Undrained Tests — N. A. Tsytoich and Z. G. Ter-Martirosyan	181	16
Field Determinations of the Overall Moisture Content of Frozen Ground with Thick Streaks of Ice — A. Ya. Litvinov	184	18
Problem of the Nomenclatural Signs of the Slumping Qualities of Loess Soils — V. P. Anan'ev and Ya. D. Gil'man	186	19
Field Studies on the Strain and Strength Properties of Peat Soil — V. G. Bulychev, L. S. Amaryan, and E. T. Bazin	189	22
Compressibility of Thawing Ground According to Compression and Field Tests — V. P. Ushkalov	193	24
FOUNDATION ENGINEERING		
Stability of Foundations under Conditions of Soil Heaving during Freezing — V. B. Shvets and B. I. Kochengin	198	26
Experimental Investigations of the Bearing Capacity of Single Piles in Loessial Soils — I. V. Finaev and G. V. Kanakov	202	28
UNDERGROUND STRUCTURES		
Experimental Investigation of Soil Compaction Round a Tunnel with an Extruded Cast-In- Situ Lining — I. Ya. Dorman	207	32
Experience in Calculating the Characteristics of the Real Surface of a Working in Order to Estimate the Variability of the Stresses at the Periphery — V. I. Sheinin	209	33
ADVICE TO DESIGNER AND INVESTIGATOR		
Calculation of Soil Resistance when Pulling Out Pipes — V. I. Voropaev	211	34
FROM FOREIGN EXPERIENCE		
Design of Foundations with Consideration of Seismic Conditions in Japan — Yu. G. Trofimenkov	216	37

INFORMATION

Annual Meeting of the National Association (Commission) of the USSR for Soil Mechanics and Foundation Engineering	221	40
---	-----	----

REVIEWS AND BIBLIOGRAPHY

Reports at the Sixth International Congress of Soil Mechanics and Foundation Engineering ..	222	40
Works on Soil Mechanics and Foundation Engineering Published in 1965-1966	224	41
ERRATA	228	

Number 4 July-August, 1966

SOIL MECHANICS

Determination of the Limiting Resistance of Sand Soils under the Point of a Pile by Means of Static Penetration—V. G. Berezhantsev	229	1
Stresses in Sandy Soils near a Loaded Ram—M. N. Okulova	235	5
Calculating the Plastic Deformations Involved in Soil Consolidation by Impact —L. R. Stavnitsev	239	8
Rated and Calculated Characteristics of Quaternary Clay Soils of the Donbass —B. E. Bronshtein, A. S. Gorbanov, and S. Z. Khadzhinov	244	11
Influence of the Side Walls of an Experimental Tray on the Measured Soil Pressures —M. N. Vargin	247	12
Investigation of the Swelling and Shrinking Clays in the Region of Kerch—E. S. Burov, E. A. Sorochan, and V. G. Chunikhin	250	14

FOUNDATION ENGINEERING

Soil Resistance when Jacking Piles—B. V. Goncharov	255	17
--	-----	----

UNDERGROUND STRUCTURES

Experiment in the Use of the UVV-1 Vacuum Ground-Water Lowering Installation —K. S. Bogolyubov	258	19
---	-----	----

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

Calculation of the Settlement of Foundations on Thawing Soil—M. V. Malyshev	260	20
Investigation of the Effect of the Thermal Regime of Unheated Basements on the Freezing Depth of Foundation Soils—V. I. Stanov and V. P. Sviridova	266	24
Deep Compaction of Slumping Soils by Cable Drilling Rigs—V. G. Galitskii, I. N. Kruglov, and R. P. Eiduk	269	25
Stabilization of Slumping Loess Soils by Injection of a Lime-Slag Suspension —P. D. Dolgikh	272	28
Use of the Peat Soils of Western Siberia as Natural Foundations—V. I. Kuseva	274	29
International Conferences on Soil Mechanics and Foundation Engineering	277	30

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

Testing a Large-Panel House of Yielding Design on Slumping Soils —A. A. Grigoryan, I. D. Bepalyi, D. L. Shapiro, and B. G. Kulachenko	278	31
Photographic Investigation of the Interaction of Anchor Plates with Soil—S. M. Koslov ..	284	34

ADVICE TO DESIGNER AND INVESTIGATOR

New Design of a Conical Vaned Point for Determining the Characteristics of Friction and Cohesion of Cohesive Soils—V. A. Grigor'ev and P. I. Eizler	286	35
--	-----	----

INFORMATION

24th Scientific Conference of the Leningrad Civil Engineering Institute—S. N. Sotnikov ..	287	36
Seminar on Pile Foundations under Weak Soil Conditions—A. P. Khamov	289	36

BOOK REVIEWS

V. Komlev, Z. Babichev, B. Goncharov, and V. Shakhirev. Pipeline Supports —Reviewed by E. V. Svetinskii and A. B. Khamov	291	37
---	-----	----

Provisional Instructions for the Design of Underground Storage Facilities in Stable Rocks (SN 310-65)—Reviewed by A. P. Staritsyn	293	38
Works on Soil Mechanics and Foundation Engineering Published in 1965-1966	295	41

Number 5 September-October, 1966

SOIL MECHANICS

Solution of Axisymmetric Problems for Circular Plates on an Elastic Foundation —O. Ya. Shekhter	301	1
Formulation of the Mixed Problem of the Theory of Elasticity and Statics of a Cohesionless Mass—G. A. Geniev	308	5
Properties and Classification of Sands in Foundations of Buildings (A Discussion) —O. M. Reznikov	313	8
Strengths of Compacted Soils at Novosibirsk—I. G. Charushnikov and Ya. E. Shaevich	317	10

FOUNDATION ENGINEERING

Stress and Deformation in Pile Foundations of Large-Panel Houses—Z. V. Babichev	319	11
Measuring Stresses in Soils under Foundations—G. E. Lazebnik, A. A. Smirnov, V. I. Simakov, and Ya. M. Levadnyi	322	14
Basic Principles of Technical and Economic Comparisons of Pile Foundations with other Types of Foundations—A. A. Obodovskii	327	18

UNDERGROUND STRUCTURES

Study of the Deformation Properties of the Base of the Arch Dam of the Inguri Hydroelectric Power Station—K. L. Ter-Mikaelyan	331	20
---	-----	----

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

Effect of Engineering Geological Conditions on the Character of Destruction of Buildings during Earthquakes—P. M. Gressel'	335	22
Engineering Analysis of the Aftereffects of the Tashkent Earthquake, April 26, 1966 —I. I. Bubis	339	25
Effectiveness of Vertical Drains in Peat—I. E. Evgen'ev	345	29
Resistance of the Loess Bases of Friction Piles—V. A. Zurnadzhi	349	30

EXPERIENCE GAINED BY CONSTRUCTIONAL ORGANIZATIONS

Use of Vibrators and a Thixotropic Jacket for Sinking Casings—A. S. Tkachenko	352	32
Rises in the Level of Groundwater and Changes in Its Chemical Composition at Industrial Sites—B. L. Gorlovskii and L. M. Shekhtman	355	34
Experiment in Re-equipping Wells for Deep Bench Marks—N. P. Belous	357	35

ADVICE TO DESIGNERS AND INVESTIGATORS

Layout of the Foundations of Foundry Molding Machines—Yu. B. Rakhlin	359	37
--	-----	----

DISCUSSIONS

Characteristic of Critical Acceleration for Estimating Dynamic Stability of Saturated Sands—Sh. A. Sideras	361	38
--	-----	----

INFORMATION

Instruments and Devices with Programmed Control for Soil Research—I. I. Bol'shedonov, P. N. Makaruk, and E. F. Vinokurov	363	39
--	-----	----

CRITICISM AND BIBLIOGRAPHY

Works on Soil Mechanics and Foundation Engineering Published in 1965-1966	365	41
---	-----	----

SOIL MECHANICS

Calculation of a Ring on a Compressible Layer - K. V. Kovalev and Le Kong-chung. . . .	371	1
The Mechanism by which Residual Strains Develop in Friable Porous Materials. - I. I. Cherkasov	374	2
[All-Union Conference on Strength and Plasticity (February 1-4, 1967 at Moscow State University).		4]

STRUCTURAL PROPERTIES OF SOILS

Shear Resistance of Weak Soils in their Natural Occurrence - L. S. Amaryan.	378	5
Concerning the Nomenclatural Criterion of Slumping Soils (Discussion) - G. A. Sulakshina and Z. V. Klykova	381	6
Book Reviews	384	7
Structural Disturbance on Depth of Seasonal Freezing of Clay Soils - V. I. Fedorov. . . .	385	8

FOUNDATION ENGINEERING

Experimental Investigation of the Stability of Bases of Anchor Foundations - A. S. Kananyan	387	9
Calculation of Foundation Cantilevers for Shear (Discussion) - A. T. Martishyus.	393	12
Investigation of the Effect of "Rest" of Piles on their Bearing Capacity - A. E. Radugin. .	397	14
Mounted Equipment for Dynamic Pile Tests - V. G. Bulychev, I. V. Serebryanyi, E. V. Svetinskii, and S. I. Borodavchenko	400	16
Mutual Effect of Piles in a One-Row Pile Foundation and in a Pile Group - A. P. Khamov	403	17

CHEMISTRY IN FOUNDATION CONSTRUCTION

Determination of the Optimum Electroinjection Conditions - B. P. Gorbunov and V. K. Chuvelev	409	21
Strengthening of Loessial Ground by Resorcinol-Paraformaldehyde Solutions - I. A. Bazarbaev	412	23
Classification of Chemical Methods of Strengthening Ground in the Foundations of Buildings and Structures - V. V. Askalonov.	414	24

UNDERGROUND STRUCTURES

Distribution of Stresses in the Lining of a Circular Tunnel when Driving a Parallel Tunnel - N. N. Fotieva and V. I. Sheinin.	417	26
--	-----	----

CONSTRUCTION UNDER SPECIAL SOIL CONDITIONS

Modeling the Work of Pile Foundations in Permafrost - K. F. Markin	423	29
--	-----	----

FROM THE EXPERIENCE OF CONSTRUCTION ORGANIZATIONS

Cementation of Loessial Soil - V. P. Senokosov.	429	32
Calculation of the Water Regime of the Bases of Structures at Industrial Enterprises - I. S. Nikitin.	430	33

ADVICE TO DESIGNER AND INVESTIGATOR

Graphs for Selecting Pile Foundations - I. G. Kavratskii.	433	35
---	-----	----

INFORMATION

Eighth Interdepartmental Conference on Geocryology - S. S. Vyalov	436	36
New Books of Stroiizdat in 1967	438	37

BOOK REVIEWS AND BIBLIOGRAPHY

P. I. Brait, Geodetic Method of Measuring Deformations of Bases and Structures . . .	439	38
I. M. Gor'kova, Structural and Deformative Characteristics of Sedimentary Rocks - Reviewed by V. V. Sviridov	442	39
Works on Soil Mechanics and Foundation Engineering Published in 1965-1966.	443	41
